

THE FUTURE IS RIGHT HERE, AND YOU'RE INVITED!

3DE by Junior Achievement is a **pioneering high school instructional model** that is at the forefront of our mission to expand economic mobility by transforming education into dynamic, real-world learning experiences. This **innovative educational approach** is anchored in competency-based case methodology and introduces students to 16 real-world case experiences throughout grades 9-12.

The 3DE model is rooted in the **development of essential competencies** such as critical thinking, creativity and innovation, communication, collaboration, cultural agility, and self-direction. Through **consistent investment** by educators, Junior Achievement staff, business partners, and volunteers, students flourish as they build confidence and prepare to lead choice-filled lives beyond high school.

BECOME A LOCAL CASE PARTNER

Local partners foster new learning pathways through customized cases that help students prepare for the real world while also providing impactful touch points for employees as they engage in the case process.

Local Cases are an exclusive partnership opportunity through JA North that includes:

- Supporting as many as 300 St. Paul Public School students
- Packaged multi-media assets to create accessibility for all learners and promote extended learning
- Opportunity to co-author a real-world case study for applied learning
- Integration in 3DE LMS to provide ease of access and exploration for teachers and students
- Building connections to students and developing a strong talent pipeline
- Aligned teacher training to empower educators with the knowledge to facilitate lessons
- Brand recognition in 3DE schools in St. Paul and on 3DE by Junior Achievement marketing materials

EDUCATION FOR EVERY
DIMENSION OF LIFE

DEVELOPING A CASE

With the support of a Project Manager and a Case Designer, your customized case is designed to yield optimal outcomes. As part of the process, you'll complete a short questionnaire and participate in 2-3, 45-minute design sessions. Once the case is approved and accompanying resources are shared, 3DE produces all content for use in teacher training, classroom implementation, and monitoring for effectiveness. Volunteers from your organization will participate in various aspects of the case work in the classroom.

3DE connects education to real-world concepts to heighten students' appreciation for academics and long-term aspirations.

3DE infuses business connectivity into all aspects of learning to deepen students' understanding and sustain engagement.

3DE delivers opportunities to apply academic concepts to enhance students' retention of knowledge and develop skills for success.

FINANCIAL COMMITMENT

Local Case Partnerships are \$25,000 per academic year, which is committed to Junior Achievement North on an annual basis to support the ongoing implementation of the case. Your annual investment secures your integration in the model, ensures students are exposed to your company, helps bring learning to life, and demonstrates your commitment to the community.
